"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife...

#### READ OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.
2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.
3. A full thirty day return privilege is allowed on all purchases.  
Returns may be made for any reason, or no reason. My business depends on attracting repeat customers. It does neither of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.
4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request.
5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described : "1805 S-267 VF20 Sharpness of VF30 with smooth brown surfaces, some light pinscratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed It is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC rarity ratings as compiled by Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings die state and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large Cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgments and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet a pure investor who has profited by investing in rare coins. Collectors who form a discriminating collection over a period of years have often done quite well from a financial perspective. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. When asking a cat which canary to buy remember his first concern may not be how well it sings.

Ex Roger Cohen sale lot 8. Graded in Rogers census VF35 it was graded F15 in the sale. An example of the kind of difference of opinion that caused some controversy over the grading. (photo)

1794 C-1a R3 G6 \$ 165.00

**RARE 1796 C-2 HALF CENT**

- 1796 C-2 R5 G5/Fr2 \$3850.00  
Probably VG8 by detail though the surface roughness is such that much of the reverse detail is gone. The obverse detail is all intact including portrait LIBER of LIBERTY and a full sharp date. The color is a dark chocolate with some tinges of brick red. Surfaces evenly pitted though no bad marks, rim bumps or damage. By no means perfect or even pretty, but very rare in all grades. This is the first relatively reasonably priced example with a clear date I have had in close to three years.

1803

1803 C-1 R1 F12 \$ 85.00  
F15 Smooth light chocolate brown. A few old pin scratches. Nice color and overall appearance.

1804

RARE LOW FOUR 1804 C-4 EARLY DIE STATE

1804 C-4 R5 VG7 \$ 950.00  
Smooth chocolate brown and tan with smooth surfaces. There a few minute field marks but fewer than one might expect for a coin of this grade. Full clean rims, and full drapery at the bust. A pretty coin for the grade. Early die state. I can see no trace of the reverse crack through STATES OF that Breen describes. A very difficult variety to find in problem free condition.

1793.

A SUPERB SHELDON-1 CHAIN AMERI.

1793 S-1 R4 F15 \$11,800.00  
Superb glossy tan color with a slight woodgrain effect. A small scratch at liberty's chin into field, else virtually flawless. Perfectly centered with a strong date and all legends sharp. This coin is a case where strict originality, problem free surfaces and outstanding eye appeal count for more than technical grade. The price is far in excess of what one might expect a fine chain cent to bring. But if you have closely followed the Chain Ameri.'s offered on the market the past several years, virtually all of them severely marked or damaged in some way, you will realize that this is an exceptional coin which will be a pleasure to own. (photo)

1793 S-1 R4 F12 CHAIN AMERI. \$4600.00  
F15 Chocolate steel and brown. Perfectly centered and sharply struck with all legends and date sharp. Minutely porous surfaces that were chemically cleaned and expertly retoned. Slightly sharper than the example above but the color and surfaces not so choice. A perfectly respectable example much better than the damaged or corroded examples normally available.

1793 S-4 R3+ VG10 CHAIN PERIODS VAR. \$4500.00  
F15 Black and tan. Even underlying granularity. An attractive well balanced coin. With no edge marks or other defects. So many chain cents seem to come badly damaged or dented. This is a reasonably priced attractive example. Not absolutely perfect but not obviously lacking in any respect.

- 1793 S-6 R3 VF25 WREATH \$3800.00  
VF35 or sharper with nice medium brown color. The surfaces are evenly granular under magnification. A very faint scrape in obv field K10, a tiny rim mark K12 rev. Good overall eye appeal with perfect centering and and exceptional strike. (photo)
- 1793 S-9 R2 F12 WREATH \$1750.00  
VF25 Glossy light brown. Several small edge marks and a hit in the obv field K8. Nice color with an attractive appearance. Very difficult to find a coin with acceptable eye appeal without paying a fortune.
- 1793 S-11c R3- VG7 LETTERED EDGE WREATH net \$ 850.00  
Slightly sharper medium tan and brown with some microscopic porosity on the obverse but basically problem free and with good eye appeal for the grade.
- 1793 S-12 R6 AG3 LIBERT CAP net \$1750.00  
G5 Choice glossy tan and brown. A large planchet lamination across the left obverse field K7 to K11 this affects none of the date or liberty. I have deducted for this mint made defect though whether it makes the coin less or more desirable is a matter of taste. There is a tiny rim mark obv K3 otherwise the surfaces are virtually flawless. A very rare variety with good eye appeal. Ex Century sale lot 645. (photo).

- 1794    S-20    R3      VG7      1794 HEAD OF 1793      \$1450.00  
Slightly sharper with some light hairline scratches on Liberty's face. These must have occurred during circulation as they are now worn and barely visible. The color is an exceptionally nice tan to olive brown. The surfaces appear smooth, and remarkably clean for an example of this variety in this grade. The rims likewise are free of disturbances. Quite scarce in any kind of reasonably attractive condition.
- 1794    S-22    R1      F12      \$ 495.00

Sharpness about VF35. Many small nicks and pinscratches, as well as rim dents all the way around. Attractive light brown color and the surfaces, (where not marked!) are glossy. From perfect state I dies without the always seen crack from neck to rim K5. Rare in this die state and still desirable to the specialist, despite the defects, as it's pedigree attests. sides. However virtually all the design obv and rev is  
intact and the surfaces & color is attractive though a  
bit grainy. Far above average for this variety in this  
grade.

Choice glossy chocolate brown. A minute nick in obv field K2, a short scratch above C in CENT toward wreath. Really no other defects worth mentioning. Exceptionally choice appearance for a 1796 Draped bust cent of any variety. This is rated second finest known of the variety in the current census and graded F15 which I agree with though it had been listed as F12 in in the R.S. Brown sale. The finest known is a VF25 permanently impounded in a west coast collection. A rare variety in all grades. Ex Barry Fox, Denis Loring, Robbie Brown Sale 9/30/86 lot 128, Dr Chambers, R.J. VF35 or slightly sharper dark chocolate and olive tan color. The surfaces very lightly granular, an old scratch on the neck from the curl below ear diagonally down into drapery above six. This specimen should rank among the top eight examples and will be hard to replace as the better coins are presently in secure collections.

1800

- 1800 S-199 R4 G6 \$ 110.00  
Glossy light chocolate brown. Choice for the grade.  
Latest die state I have seen with swelling and breaks  
reverse. Later than Robinson lot 419.
- 1800 S-202 R4+ G5 \$ 75.00  
VG7 Dark chocolate. Some red patination reverse.
- 1800 S-208 R3 F15 \$ 650.00  
VF25 Smooth chocolate brown. Many tiny circulation marks.  
Large rim break over TY and into field. A coin with good  
eye appeal. this variety is very scarce in higher grades  
perhaps a dozen known VF20 or better.

**EQUAL 12th FINEST 1800 S-210**

- 1800 S-210 R6 VG8 \$2500.00  
VG10 Dark chocolate brown and tan with basically smooth  
surfaces. Very scarce early die state with clashing  
plainly visible in obverse field K1-2 prior to crack  
forming from E to hair into field. A rare variety and  
exceedingly so in this die state. Examined by Del Bland  
and ranked tied for twelfth finest known of the variety.
- 1800 S-211 R3- G6 \$ 65.00  
VG7 Smooth light brown with some grey area reverse. Some  
very microscopic porosity. Nice for grade.

**CHOICE 1801 S-216**

1801 S-216 R1 AU50 \$2600.00  
Choice lustrous medium brown with some faded mint red on the obverse. Somewhat bluntly struck as are all I have seen of this variety, this example actually more strongly struck than usual. A small nick on neck and a faint hairline in obv field K3 the only marks worth mentioning. Choice. (photo)

**EQUAL FIFTH FINEST 1801 S-218**

1801 S-218 R6 VG10 \$7500.00  
F15 Medium chocolate brown. Well centered and sharply struck. The surfaces basically smooth with some traces of porosity and a number of tiny marks. From an early state of the dies with LIBERTY and the date both completely sharp. Even the higher grade specimens of this variety generally show weakness at RTY. Far above average example of this rare variety. (photo)

1801 S-224 R1 F15 \$ 135.00

1802 S-231 R1 VG10+ STEMLESS WREATH \$ 85.00  
F12 Olive black and steel tan. Smooth surfaces with some old dirt in a few leaves and letters on the reverse. One tiny nick before neck. Otherwise no notable defects.

1802 S-231 R1 VF20 \$ 195.00  
VF25 Chocolate and tan tiny rim abrasion K10 obv. Nice early date cents are difficult to find and are way too cheap compared to middle and late dates.

CHOICE LATE STATE STEMLSS WREATH 1802 S-231

1802 S-231 R1 EF40+ \$ 950.00  
Frosty medium chocolate brown free of distracting marks.  
Late die state with arc crack from LIBERTY to rim K3 obv.  
This also has the strong crack through the fraction on  
the reverse. The latest state I am aware of. Great eye  
appeal and quite lustrous for the grade.

1802 S-232 R1 VF35 \$ 525.00  
EF40 Glossy medium tan to brown with some darker  
mottlings. One tiny nick in obv field K2, a tiny scratch  
below L. Few tiny surface marks. Sharply struck. GLK:788.

1802 S-236 R1 F12 \$ 140.00  
F15 Smooth medium brown couple tiny nicks in hair.

1802 S-237 R2 VF25 \$ 350.00  
VF30 Deep glossy black color probably from recoloring but  
attractive nevertheless. Few minute obverse hairlines.

1803

1803 S-244 R4 F12 \$ 240.00  
F15 Medium chocolate brown with smooth surfaces. Light  
vertical pin scratch from drapery above eight into hair.  
A nice pleasing cent. Scarce nice.

CHOICE AND WELL STRUCK 1803 S-250

1803 S-250 R3 EF45 \$1400.00  
Choice frosty golden brown faded from mint color, a trace  
of faded red and an area of golden olive on the reverse.  
Slightly sharper with the only mentionable defect a short  
scratch at the rim between A & T of states. Some evidence  
of grease on the die above and below hair ribbon.  
Excellent eye appeal. Lot 986 from the recent century sale  
where somehow listed as VF35. Subsequent to the sale I  
showed it to one of the keepers of the flame ( condition  
census wise) and had it called AU50. You may call it AU50,  
or a very,very, very, nice VF35. A rose by any other  
name...etc. A very pretty and desirable coin. (photo)

An example of this variety without major detractors is a rarity in my experience. CONDITION CENSUS LEVEL 1819 N-3

Lustrous chocolate brown with some faded red on the reverse. No marks to speak of but a couple tiny specks of crud and a bit of rub on the high points. Listed as a mint state coin and second finest in the condition census. A pretty coin and certainly among the top six. Ex Nicholas:508.

Smooth medium chocolate and brown with a tan reverse. A trace of granularity in field before neck, a light scratch between stars two and three. Very scarce in all grades. This is one of the finer examples I have handled.

|      | Close to mint state with virtually full luster and a sharp strike but evidence of having been cleverly cleaned and retoned. Microscopic hairlines visible under magnification obv and rev and a spot of corrosion removal on the reverse between E & R of AMERICA perhaps explaining the cleaning. Certainly acceptable in terms of eye appeal and quite scarce in nice condition. |     |      |           |

This coin was formerly listed in the CC as a full forty coin and sold an even thousand dollars. BRILLIANT MINT RED 1843 N-12

1843 N-12 R2 MS64 \$1850.00  
 Full brilliant mint red with just a touch of mellowing. Still retaining over ninety percent of its original mint red color. A small carbon spot in hair to right and below Y in LIBERTY. A few minute marks but basically free of impairments. Sharply struck. Dates in the early forties with this kind of color are dozens of times more scarce than their fifties counterparts.

1843 N-15 R4+ VF30 \$ 110.00  
 EF40 Basically smooth chocolate brown with a number of small surface nicks and handling marks. Sharp strike. Scarce.

1843 N-16 R4+ VF20+ \$ 175.00  
 EF40 by sharpness with glossy tan color. An interesting story comes with this as it was in the Chalkley sale as lot 907. At that time it was covered with green verdigris on the reverse and netted as F15. The verdigris has now been removed except for remnants on leaf under E and at rim over AT. There are a number of small rim marks. But the color is a nice smooth tan and the sharpness is great. Graded by JRG VF20+ and presently listed as eighth finest known of this scarce variety. This specific coin was discussed in the 3/31/90 Copper Quotes by Robinson. So now you know the rest of the story.

THE ROGER COHEN HALF CENT SALE

How long has it been since a half cent sale of this magnitude was held? The Norweb sale was important. There were some great half cents in Lauder. In recent years the only really extensive sale of a half cent collection offering both rarity and a reasonable attempt at completeness has been Jack Robinson's sale. Jacks half cents were quite respectable, but really were only an addendum to the large cent collection. For most collectors the Cohen sale represents the first real and complete half cent collection offered for public sale during the whole of their adult collecting lives.

The Cohen collection was assembled over four decades and included every variety and every subvariety -by Cohen number of course-known. The quality of the collection was high, though not every piece was a gem by any means. There were coins of every quality and price level represented. Some controversy (and what would be the fun of any major sale without some) surrounded the issue of just how high the quality of Cohen's coins were. The cataloging and grading was initially done by Frank Wilkinson and Mike Packard with the cooperation it is assumed of some of the other east coast collectors and perhaps with half an eye on Rogers own notes. The resulting work was forwarded to Superior and eventually compared to independently done notes on the collection by some other EACers notably Jack Robinson and Doug Bird. Low and behold, and I know the large cent collectors are going to find this hard to believe, there was a difference of opinion as to the grading of many of the pieces in the collection. Here I will leave the interim struggles to the readers'imagination. As one might guess the end result was a hybrid of the two

camp's opinions. But you know, that's why they print the catalog AND hold lot viewing for several days before the sale. So each prospective purchaser can view the coins himself and make up his own mind. Whatever one feels about the grading I do not think there could possibly be any complaint about the production quality of the catalog. The photographic quality is excellent, the descriptions meticulous and accurate. There were an average of only five lots per page allowing plenty of space for description, virtually every coin was photographed. It is a catalog with which the Cohen family should be both pleased and proud. The coins themselves are what makes such a catalog possible. Part of what made this collection great is something almost ineffable. Well maybe you had to be there. As it turns out almost everyone was there! There were half cent collectors not seen in years, collectors completely unknown to everyone, collectors that had been thought permanently lost to baseball card dealing, or rumored to have joined a monastery, or too busy rent collecting. By the time the first lot was hammered down the auction room was packed. Having arrived only a half hour early I was able to squeeze into a chair in the back corner of the room only partially hidden behind a column and had a reasonably good view of the festivities. The first few lots were uneventful though I did buy one lot a 1794 C-1a graded F15 in the catalog, above the description of which I had penned "nice VF30". Hope I looked at these carefully. Several of the edge letter varieties I had not seen offered publicly before. The nice VF 1794 C-2b brought a bid of \$7000, the rare 3b in good a few lots later brought \$5250. Then the 1794 C5 a pretty much available coin with small edge letters, but this one had the large letters on the edge and brought \$16,000. I'm going to start looking more carefully at the edges of my large cents!

I can't mention all the highlights, virtually every coin was important for one reason or another. And Roger had multiples of many varieties. How long since a 1796 no pole C-1 has been offered. I personally liked the second one that sold for 13K better than the first one that brought \$16,000. A really horrible C-2 brought \$4000. While they were whizzing and tooling it they should have removed the pole! Next came ten 1797 C-1s! I had never seen an authentic 1797 C3c gripped edge half cent. The first one here brought \$12,500 to a one time New Netherlands cataloger the second was probably a bargain at \$4600, a little less obv and reverse detail but just as much edge! All the more common varieties brought very strong prices based on CQR. And collectors were obviously paying a strong premium for any half cent that had been plated in one of Rogers books. The 1804 C-6s brought strong prices by die state. Though here the cataloging fell short by using the antiquated KATMAN numbers, an effect I assure of the long running feud between Roger and Walter Breen.

One could not possibly determine the correct die state from the catalog description only. Will someone please publish a usable guide to these C-6 states? In addition to numerous scarce die states, Roger also had a great group of half cent errors, double strikes, overstrikes, unusual undertypes, etc. The bulk of these went to a future (this years) EAC convention host. Many of them will be on display in St. Louis, yet another reason to come! Two 1808 C-1s were offered. The first a nice G5 brought \$16,500, the second an ugly FR 2 brought \$10,500. CQR is \$6000 in G, \$3000 in AG. I actually thought these might bring more. Why? Because many of the varieties offered here had not been offered in years by any means public or private. The last C-1 08 I know of was sold close to a decade ago. That's a long time to wait if you need one. Remember Jack bases CQR prices on real transactions as much as possible. If no coin sells the CQR value stays the same. So many great coins were offered here and ended up in appreciative hands. The nice VF 1808/7 C-2A brought \$1700. A couple great 1809 C-1s a VF30 at \$6000 and a VF20 with the cud at \$4400. The two star break 1811 brought \$2600 and the great 1826 C-2 with the cud brought \$5750. In between were many, many nice coins including an AU50 1825 C-1 with a CQR value of \$200 that brings \$1300. Oh it looks like there's going be some late nights for Jack before the next CQR is ready for print. The quality of the later dates was quite impressive. A nice VF 1831 brought brought \$6800 while the 1834 C-1 "proof" from the Moreira Sale brought only \$440. A nice run of "for sure"proofs finished up the sale.

What made this collection so special? I'm not sure I can put my finger on it. In part it must be the manner it was assembled and the result. Roger's collecting pursuits compelled him to "write the book he had longed to read". Roger was not an elitist and anyone who met him would sense that instantly. As I went through the collection he had formed over many years I really felt I came to know him better. There were some incredibly wonderful half cents that you knew instantly were beautiful and important. Others required study before you uncovered the secret of their fascination. One lot I purchased at the sale I have sitting before me as I write this. It is an 1806 C-4 lot 237. When I got it home I noticed someone had scribbled on Rogers original envelope that accompanied the lot, "why is this in the sale?". I sat down and tried to discover why Roger had included such a lowly common coin in his collection. At first I could uncover nothing of interest or merit in the coin. It was VG7 by detail, a kind of ugly dark brown, a little rough with some scratches. The die state neither particularly early or late. The reverse was struck a bit off center. A little unusual perhaps in that the topmost leaves were boldly struck and almost every

C-4 I can remember seeing is softly struck on the topmost leaves. Flipping the coin from reverse to obverse and back again I finally noticed that the dies were rotated about 120 degrees. Of course resulting in the weakness normally seen at the top of the reverse appearing instead at the corresponding portion of the rotated reverse. I had to re-adjust my thinking somewhat because I noticed the weakness was slightly left of where I expected it. Getting out another C-4 I discovered that the weakness on the top of the reverse is centered slightly to the left. I had not ever consciously noticed this before. After a time I became aware that I had just spent close to forty-five minutes studying this little nothing coin. It also occurred to be that perhaps this little nothing coin was in Roger's collection because to him, a real student and a real lover of the half cents, there were no little nothing coins. He also must have spent time studying this coin and discovering that about it that was unusual, interesting and of value. That common study and discovery is the connection that binds collectors together. It is what makes this Roger Cohen collection of half cents a great collection. A collection put together by someone that truly loved the series and contributed to its understanding both as a student and a teacher. Roger was a person very much like the coins in his collection, interesting and unusual. To those collectors who were lucky enough to know him, and to those who never knew him but will forever benefit from his work, a person of great and lasting value.
